Find out why SmartSimple has the most comprehensive system for managing all your research grants management activities.

smartsimple

RMS360° Research Management System

Oversee your entire research process right from SmartSimple's **RMS360°** solution.

Research Administrators

- Monitor all applications from LOI draft stage to final report.
- Coordinate contributions to projects within and across institutions.
- Access payment schedules, program summaries, reports, dashboards, and more.

Reviewers

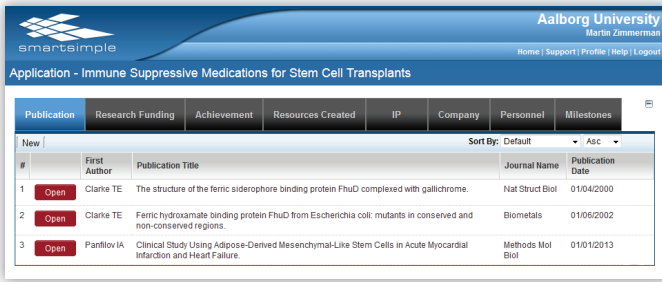

- Centralize login credentials across research and funding bodies.
- Create automatic workflow notifications for reviews and proposals.
- Publish funding opportunities and research topics to promote collaboration.

Researchers

- View deadlines and application histories to improve application success rates.
- Save applications in draft state to avoid lost data and time.
- Report on key performance indicators for funded projects.

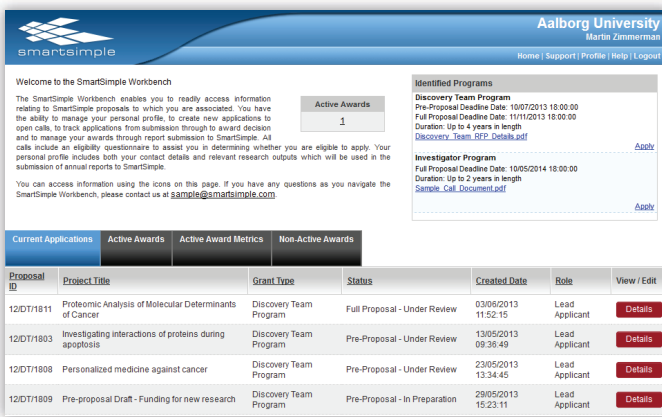

Funding Agencies

- Manage all funding opportunities and application activities.
- Track milestones and outcomes for all programs.
- Facilitate industry-government co-funding opportunities.

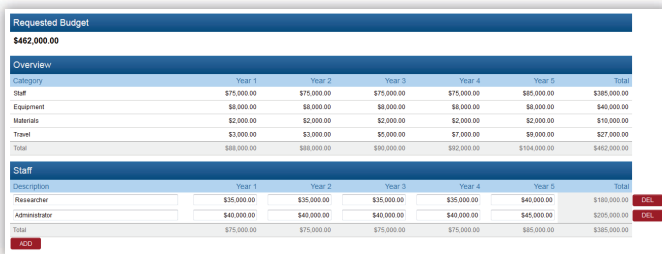

Research Outcomes

- Define key performance indicators for reporting outcomes.
- Send automatic reminders for due dates using system communication and workflow tools.
- Access and export scientific progress, summary reports and dashboards in multiple formats.

Research Grants

- Configure research funding opportunities according to your organization's requirements.
- Ensure consistency by sharing common elements between calls for proposals.
- Personalize access and visibility through unique portals.
- Generate approvals, declinations and other branded notifications instantly.

Budget & Funding

- Link complex projects to multiple sources of funds.
- Create payment schedules linked to reports or milestones.
- Provide multiple iterations of the budget with an auditable history during application and review stages.

Integration, Branding & Engagement

- Integrate RMS360^o seamlessly with your current website.
- Ensure consistency with your existing brand standards.
- Publish calendars and reports on the web to improve stakeholder engagement.

Eligibility & Formatting Checks

- Enable Researcher eligibility questions, manage data entry fields, and confirm uploaded document lengths.

Panel Review Management

- Assign and invite reviewers to applications, either as an individual or as members of a review panel.
- Match reviewers to proposals based on expertise and relevant criteria.
- Enable reviewers to declare conflicts of interest.
- Manage expense claims.
